## In Honor of Drafted Men

The large audience which attended the meeting called Monday evening by Glendale Red Cross chapter to do honor to the drafted men of the district who are expected to soon leave for training at American Lake or elsewhere, testified to the deep interest in these boys who are to represent us at the front. Unfortunately but one of the drafted men for whom the reception was arranged, responded to the invitation, and he was our own much prized fellow-citizen, Dwight Stephenson. The fact that many of the men who have been called are awaiting the rulings of the District Board on their claims for exemption, accounted in all probability for the absence of guests of honor.

In the course of the meeting the congestion at the office of the District Board was referred to by Mattison B. Jones, member of the local board of exemption, who declared there should have been Boards of Review at San Diego, Riverside and Santa Barbara instead of requiring one set of officials to cover the whole of Southern California. Owing to delay on this account he prophesied that the quota from this district will probably not entrain before next week.

Dwight Stephenson has been appoint-

ed leader of the quota of which he will be a part, and upon him were showered the honors of the evening, which he received with becoming modesty. In his fine speech, which practically closed the evening's program he thanked the Red Cross for the work it is doing. "It means so much," said he, "to the boys at the front. It takes the place of wife, mother or sweetheart, and we appreciate everything you have done."

"We are fighting for civilization," said he. "The people have been asking: 'Has democracy failed? Has civilization failed? and even Has Christianity failed?'"

"Our answer is 'No' and when the mists of this great struggle shall have cleared away the United States of America will stand before the world as the champion of human rights and human liberties \* \* \* When this war is over we will be the first to stretch our hands across the sea and say to the German people: 'Let us be brothers. Build the institutions we have built. Enjoy the freedom we enjoy.'"

As president of the local organization, Dr. Harrower conducted the meeting in his customary charming manner, also led the patriotic songs, and announced the numbers of a very nice program to which Miss Elizabeth Mottern contributed two much appreciated piano numbers. Two violin solos by Julian Kranz, one his own composition, with piano accompaniment by Miss Gertrude Champlain were much enjoyed. So was the speech of Doctor McCrea who reviewed the origin of the Red Cross and its beautiful flag.

Mr. Mattison B. Jones made a fine address, frequently interrupted by applause which was especially enthusiastic when he said: "All glory to the men of France! They were with us in the Revolution. They and we are today fighting for the rule of the people against a despotic rule."

At the close of the program punch and wafers were served.

## Club Season Opens

as mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is ten fold to the good you can possibly derive from them. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally and made in Toledo, Ohio, by F. J. Cheney & Co. Testimonials free.

This total is just one-fourth of the \$42 which is Tropico's proportionate part of California's allotment.

There are doubles many persons in Tropico who will be glad to contribute something to this cause when the matter is brought to their attention. The librarian has not the time to make any further personal solicitations but will receive any donations brought to the library and forward them to the treasurer. If 126 persons contribute a quarter each it will make up the full amount expected of Tropico, so show your patriotism by leaving a quarter at the library to help along this great undertaking.

Remember the campaign closes Oct. 6.

Librarian.

### News from American Lake

From Robert Oliver, who left the Sentinel and Valley Press plant to go to American Lake, we have the following letter, postmarked at Tacoma, September 26:

"We got here Sunday night after a rip roaring trip. It started just after we left Fernando and the government had to telegraph to all cities along the route where we made any stops to

have all saloons closed while our train was in town. The San Fernando District was the only one that was sober, not a single drunk one in the bunch.

"Camp Lewis is a very nice one and beautifully situated among the pines. It is not like one would expect a camp to be but more like a city. We have no tents, everything being large, two-story buildings. Three-fourths of a building is for sleeping, one-fourth for eating. There are about 250 boys to each building. Put me on the Sentinel mailing list.

"BOB."

Mrs. L. L. Baker has been made happy by a nice letter from her son, Roger, now at American Lake. He

describes the boisterous ways of some of the soldiers on the journey North, how they got off the train at stopping places and tried to get away in autos but were brought up standing when the guns of the guards were trained on them. He reports they were cold the first night in camp but have received additional blankets, and that the barracks are equipped with stoves which will be set up later, so their comfort in that respect is assured. Good meals and served in plenty is also a part of his report. "We are drilling all day," he states. The Montana bunch which killed the porter had just arrived in camp the day Roger wrote.

### PHILHARMONIC COURSES

At the Trinity Auditorium box office season tickets for the three series of Philharmonic Courses of seven recitals each are now on sale.

These concerts are given by internationally famous stars, each series having an equal quota of vocalists and instrumentalists.

The Tuesday Evening Series, which opens the season on Oct. 9th with the distinguished contralto from the Metropolitan, Margaret Matzenauer, as soloist, will continue throughout the year until March, with such gifted artists as Eugene Ysaye, Belgian violinist, Emilio deGogorza, baritone, Leopold Godowsky, pianist, the Minneapolis Symphony Orchestra, Frieda Hempel, coloratura soprano, and Theo. Karle, the young American tenor, as stars.

The Thursday Night Series will be inaugurated Nov. 15 with the popular Alma Gluck as soloist, and will continue until April with concerts on an average of every three weeks by such artists as Harold Bauer, pianist, Mme. Schumann-Heink, contralto, Reinald Werrenrath, baritone, Efrem Zimbalist, violinist, Cecil Fanning, baritone and Mischa Elman, violinist.

The Matinee Series is arranged particularly for the out-of-town patron, each concert being on Saturday afternoon, opening with Jeanne Jomelli, the Dutch soprano, Oct. 27th. In addition to Eugene Ysaye, Emilio deGogorza and Theo. Karle, there will be concerts by three artists who will not appear on either of the two evening series—Leo Ornstein, the pianist whom many think the eventual successor of Paderewski, Maud Powell, the gifted American violinist, and Julie Culp, whose lovely mezzo-soprano voice is unequalled on the concert stage.

### HELPING MANUFACTURERS

The Chamber of Commerce has taken an interest in the paint and varnish industries of Southern California and will become active in the matter of assisting the local manufacturers to get established in the South American countries. ## PROCEEDINGS OF BOARD OF TRUSTEES

All members were present when the Board was called to order at 7:30 o'clock.

### Christmas Gifts

The first of the communications read by the City Clerk was from Mayor Woodman of Los Angeles asking the board to name some person to represent Tropico upon a committee organized to secure Christmas gifts for our boys in the army. Later in the session the matter was referred to the President of the Board who stated he would make an appointment during the week.

### Water Tanks

A second communication was from the Chicago Bridge and Iron Works and had reference to tanks for municipal water works. Subsequently it was referred to the City Engineer for the purpose of securing data as to the height and capacity of such a tank as Tropico might need.

### Reports

The report of the Treasurer for the month of September, read by the Clerk, showed: receipts in general fund \$4377.94, disbursements \$2189.26, balance in general fund \$2188.68.

Library fund Sept. 1, \$355.72, disbursements \$87.73, balance October 1 \$267.99.

Bond fund Sept. 1, \$646.83, disbursements \$250, balance October 1, \$396.83.

Sepcial guarantee fund, \$200.

Total balance, \$3053.50.

The report of the city clerk was in substantial agreement with that of the Treasurer.

Report of the Building Inspector showed fees for building permits in September, \$14.00, plumbing permits, \$1.50, electric permits, \$1.25.

On motion of Henry the reports were received and ordered placed on file.

### Legality of Petition

Trustee Seal challenged the legality of the petition filed at the last meeting for the calling of an election to vote upon the consolidation of Tropico and Glendale, declaring the law requires that thirty days shall elapse after the filing of notice of intent to circulate a

petition before the petition itself shall be filed. The thirty-day interval had not expired when the petition was presented to the Board and accepted by it subject to verification by the City Clerk, and Mr. Seal claimed it was therefore irregular and illegal.

The matter was referred to the City Attorney with instructions to present a written opinion for the guidance of the board at its next meeting.

#### Danger Light

The City Clerk presented a report from the City Marshal to the effect that the Southern California Edison Company had agreed to place a pole and light on San Fernando Road at the northwest corner of the city in accordance with the request of the Board at its last meeting.

#### Summons

President Peters reported the receipt of summons upon the city to appear in the Superior Court within ten days in regard to the disposition of funds now in the hands of the county that have been collected by various cities for fines under the vehicle act. On motion of Henry the summons was referred to the City Attorney.

#### Street Signs

President Peters also reported his observation of the duplication of street signs, and contradictory street signs through the persistence of the old sign posts on Forest avenue, Mira Loma, Cerritos and other streets where the globe signs have been installed. On motion of Veselich the street superintendent was instructed to remove the posts bearing street signs.

#### Salary Increase

The request of the street superintendent for an increase of salary to \$75 per month was held over for one week to allow time to consult ordinances relative to salaried appointments.

#### Demands

Demands were allowed and ordered paid as follows:

Tropico Sentinel (election expense) \$7.50 and \$29.75; Pacific Telephone (extension) \$1.50; Title G. and T. Co., (water) \$80.20; E. C. Fairfield (for fire department) \$3.25; W. E. # TROPICO'S LAST CHANCE

In order to ascertain the status of the Tropico water plant as an income proposition, the editor of the Sentinel addressed an inquiry to Mr. L. C. Brand, the chief stock holder in the corporation, asking for full data relative to receipts and expenditures.

The purchase of this system is a business proposition and only by acquainting themselves with such statistics can voters determine whether they should vote yes or no at the coming bond election which will decide whether Tropico shall purchase this property by an issue of bonds in the sum of \$55,000.

Mr. Brand's letter follows:

The Tropico Sentinel,

## CUT RATE DRUGGIST

## The Tropico Pharmacy

101 So. San Fernando Blvd.

Edwin Virden . . . Proprietor

Against this statement let us consider the saving which could be effected were Tropico to own and operate the plant. This is briefly set forth as follows:

Salary of Water Superintendent .....	\$1200
Office rent .....	300.00
Clerical work for R. R. Commission .....	200.00
Sundry taxes .....	1300.00
Interest (difference between 5 per cent on \$55,000 and	
6 per cent on \$80,000) .....	2100.00
	<hr/>
	\$5100.00

In other words, were the income to remain at the present figure, after paying the interest on the bonds, and reserving \$3000 for depreciation of the plant, Tropico would have something over \$5000 annually for bond redemptions and sinking fund, for replacements, extensions, etc. Interest would decrease with the redemption of bonds and decrease of principal, and in time the city would own a very valuable income property which would yield a handsome surplus for other departments, and all without an additional dollar of taxation. In fact, the voting of these bonds will reduce the city taxes of all property owners more than 7 per cent, because the city will no longer have to pay \$931 for the fire hydrant service of which it gets so little benefit, neither will it have to pay for water service in the city hall and fire department, a

total saving of about \$1000 to the tax payers of Tropicco.

The eighteen inches of water which go with the plant will abundantly supply our needs. Water is running to waste down the wash because our people cannot afford to use it freely at the present price. If the election carries, city officials are planning to double the present minimum and encourage in all possible ways the liberal use of water on lawns and gardens, believing that it will materially add to the prosperity and attractiveness of the town and allure new residents to fill up vacant houses and build new ones.

In connection with the water supply, the statement has often been made that the water company does not own the water it distributes, but merely the system, which it secured originally by the foreclosure of a mortgage. Relative to this matter, Mr. Brand stated that the Company had bought up the water rights of most of the original Tropicco owners and holds deeds for those rights, and that in addition it purchased the water rights of adjacent territory, as for instance Glassell Park, securing deeds for same; that as a matter of fact, the company holds deeded water rights in excess of the stock it is offering.

Also, in regard to the wells and the water thereof which has so often been declared to belong to Los Angeles, Mr. Brand stated that the decision of the courts in the celebrated Buffington case, brought as a test, established the fact that Los Angeles City cannot take water used for domestic purposes. Should Tropicco wish to make use of the wells in connection with this plant for the purpose of supplying water for the domestic use of its citizens, Los Angeles would be powerless to interfere.

Mr. Brand has stated that this will be the last opportunity Tropicco will have to buy the system for \$55,000, which he considers an exceedingly low price. If the city rejects the offer, he will keep it as a private investment or sell it to some private corporation at a much higher figure. In either event, Tropicco will have lost its chance to obtain control of its water supply, and will be quite helpless; because any attempt to establish a municipal plant in competition with a rich private corporation would be ruinous for a poor little city like Tropicco.

The question has been asked: What will be the situation if Tropicco votes no on the bond issue and later votes to consolidate with Glendale? The answer is obvious. Water and a distributing system will be necessary for Tropicco after consolidation. Glendale has no surplus water to bestow upon Tropicco, neither will it be disposed to spend its money to build a system free gratis to compete with Mr. Brand's plant. The calling of a water bond election to provide a system for Tropicco would probably be the first action taken by the combined municipalities after consolidation. It would be a district assessment matter and the difference between then and now would be that Mr. Brand and the Glendale officials would determine the price, but Tropicco would foot the bill and pay the costs of another election.

As stated above, Tropicco is now offered the lowest figure she will ever get for the Brand system. Glendale officials know its value as a paying investment and have made some tentative negotiations for its purchase at a higher price, according to Mr. Brand.

Citizens who have the interests of Tropicco and of their own pocketbooks at heart will do well to think on these things and then go to the polls October 10th and vote "yes" at the bond election. They should also enlighten their neighbors and do their part in getting out a full vote. Tropicco badly needs cheap water. Now is her chance to secure it, and probably her last chance.

# LOCAL HAPPENINGS

## Red Cross Exchange

An "exchange" at which pies, cakes and jellies will be sold for the benefit of the local Red Cross work, will be held in Spaulding's Pharmacy Saturday, October 6th. Tropicico does not often have a chance to buy home-made pies and cakes and we imagine the supply will give out before the demand is satisfied. The early bird will get the cake. Mrs. Joseph Griffin is the general chairman of the affair and will be assisted by Mrs. Glen Craig, Mrs. Louise Coole, Mrs. Noble Ripley, Miss Amy Miller and others.

**Golden Wedding Celebration**

Last Friday was a big day in the annals of the N. P. Banks Post and Woman's Relief Corps, which celebrated with special program, the golden wedding of Comrade and Mrs. R. D. Goss of Glendale. Chaplain Norton made an excellent talk and ratified the marriage by replacing the wedding ring upon the finger of Mrs. Goss. The Post Quartette contributed two numbers, Rev. Henry sang a couple of solos, Dr. Lucas sang twice, there were readings by Mrs. Meeks of Los Angeles, and brief speeches were made by members of the post. One hundred and thirty sat down to the wedding dinner, at which the place of honor was given to two wedding cakes which were cut and passed with as much enthusiasm and excitement as probably attended the cutting of their counterparts fifty years ago. The floral decorations were also golden, early chrysanthemums being employed with fine effect. All the guests registered in wedding record book which Mr. and Mrs. Goss are keeping as a souvenir of their anniversary.

**Auto Accident**

A sleepy Japanese vegetable man of Pacific avenue, F. Nito by name, furnished excitement for Tropico's business district Wednesday morning on San Fernando Road by running into the car of O. B. Spear, a low stripped Ford which was parked in front of the B. & B. store. Nito did not see the car. Had he continued the straight course in which he was moving his heavy truck would have struck the Ford amidships with the probability that Mr. Spear would have been killed. But Nito was resourceful. When he did see the Ford he turned his own machine towards the sidewalk, completely wrecking a front wheel. Mr. Spear's machine was also damaged but not so severely. Both men were thankful to have escaped more serious consequences.

**Torrens Title Risks**

The Financial News, in its issue of September 22, says:

"Judge Hinshaw, of Department A of the Justices' Court of Los Angeles township, has just handed down a decision in an action wherein a defunct Torrens title corporation sought to recover, through its trustees, for services rendered the defendants in procuring the registration of land under the so-called Torrens system, in which he makes it clear that such corporations are unlawfully practicing law, in that the services rendered by such corporations in obtaining the registration of land can be performed only by attorneys at law. We are wondering what effect this decision will have upon the titles to real property already registered under this little known system.

"The above mentioned case has been followed with considerable interest by owners of real property registered under the land title law, and by business men and women who accept real property as security for mortgage loans. The Torrens title companies and certain attorneys, have made a practice of soliciting owners of real property to permit them cause their land to be registered for the sole purpose of collecting a fee for the service rendered. The court would undoubtedly have held, if the question had been presented, that the practice of attorneys in soliciting clients to register their property was illegal, and would probably have suggested that disbarment proceedings be commenced against such attorneys. When approached by solicitors for attorneys and Torrens title corporations, would it not be well for owners of real property to remember that a day may come when they would wish to sell or mortgage their property, and that it is barely possible that their prospective purchasers or mortgagees would not care to take the title to their property, or accept as security property encumbered by registration proceedings?

**OUR TIN SUPPLIES.**

It will be good news to all users of tin cans to know that Alaska deposits of tin are expected by government officials to yield 300 tons. In the Seward Peninsula, where placer tin

was first mined, the source of this stream tin has been discovered and lode mining is now being carried on. In the other known Alaskan tin locality --- the Hot Springs placer-tin region, Geological Survey men are this year searching for the source.

# The Making of the Flag

How did we make the flag?

By rule?

By compass, and square, and line?  
With pattern, and thread, and the sempster's tool,  
To follow the plain design?

Was it only the lore that the draftsmen knew  
That gave us the red, and the white, and blue?

How did we make the flag?

Not all

By measuring stitch and seam,  
For part of it came from a country call  
And part of it is a dream—  
Is a vision that led brave souls aright,  
And gave us the red, and the blue, and white.

How did we make the flag?

In peace

We fashioned it fold on fold;  
In war it was blend with the grim caprice  
The drums in their summons rolled.  
'Twas the courage alike of the quick and dead  
That gave us the blue, and the white, and red.

How did we make the flag?

'Twas thus

It came to its grace and worth,  
Through all that is good in the souls of us  
The banner has had its birth;  
'Twas the holier strength of the purpose true  
That gave us the red, and the white, and blue.  
Thus have we made the flag?

Ah, no!

By colors that will not fade,  
By sinuous sweep and by deathless glow,  
'Tis us that the flag has made!  
And it whispers today to each star-told state:  
"You must hold me high and must keep me great!"
